

MARQUIS

660 Sport Yacht

The Premium Quality Yacht

No two Marquis Yachts have been built exactly alike. We build our yachts specifically to your tastes.

All Marquis Yachts are constructed at the company's American yacht yard. This yard has been building yachts since 1953 and is the most modern and vertically integrated yacht construction facility of its type in the world.

As a vertically integrated yacht yard, Marquis employees construct the vast amount of components and systems that are used. Items such as metal rails and fittings, interior cabinets and bulkheads, wire harnesses and upholstered furniture; which other yacht builders typically subcontract to outside providers, are made in-house by highly skilled Marquis craftsmen.

This gives the company ultimate control over design and quality, and allows you to make modifications to your Marquis that best reflect your personal style. Every Marquis is a unique piece of yacht design, built with pride to the highest standards in yacht construction.

Crafted for You

Marquis Yachts are engineered, designed and built to the highest level of global marine standards and certifications that exist.

Each Marquis Yacht harnesses and embraces forward reaching innovation and style that is supported by advanced structural engineering and industry leading construction technology. We have a commitment to our customers and supplying confidence and peace of mind comes before anything.

Marquis is an exclusive line of luxury yachts that are carefully built by highly skilled craftsman who share a common passion for excellence. Each Marquis Yacht is diligently handcrafted with an explicit focus on delivering ultra premium luxury and quality from beginning to end. We are not merely assemblers like many other commercial production yacht makers. Instead, our finely crafted vessels are tailor made to specification at our world class shipyard, by people who care.

Marquis is pleased to present the exciting 660 Sport Yacht, which boasts a design pedigree developed from the creative minds of the Marquis design team. This breathtaking sport yacht carries the distinctive profile and integrated interior layout that makes Marquis Sport Yachts a symbol of prestige throughout the world.

Every detail within the Marquis 660 Sport Yacht demonstrates ultra premium execution quality. The craftsmanship & joinery are the finest you will find in a yacht, regardless of size. The materials selected to craft the interior and exterior features are supreme. The hull form has been designed specifically for the 660 Marquis. Sport yacht performance is provided by perfectly matched twin diesel engines coupled to joystick activated pod drives.

Entertaining is made simple with this forward-thinking design featuring an integrated lower helm station, galley, salon, cockpit, and swim deck. Walk from area to area unimpeded by restrictive bulkhead doors, multiple steps or narrow hallways. The yacht's cockpit and swim deck bring you closer to the sea you love. The bridge is an elegant environment in which to command the vessel and witness gorgeous seascapes. The new Marquis 660 delivers an unmatched level of quality, prestige, reliability and hospitality to its owners and those fortunate to be invited onboard.
